DIESEL PRIMING & BLEEDING KIT

Modern diesel engines require 2000+ bar fuel pressure and are sensitive to air in the system. When servicing, such as changing fuel filters, air is introduced. While many systems self-bleed or have a hand pump, air purging can still take time. This kit accommodates both pressure-fed and vacuum-fed fuel delivery, offering connectors for diverse diesel systems.

- For bleeding or priming diesel systems.
- For connection in-line with the vehicle's low pressure delivery system.
- The clear pipes allow any air bubbles in the system to be seen.
- There are a total of six different connection types included in the kit covering: Fiat, Ford, GM, Land Rover, Mercedes Benz, PSA, Renault and Rover.
- Made in UK.

X-431 EURO TAB III

Technicians can now get their hands on a newly developed, high-end vehicle diagnostic tool, the Launch X-431 Euro Tab III, featuring the new Smartlink® C VCI, an advanced module allowing for enhanced communication and functions.

Using the Android 9.0 operating system, Euro Tab III builds on the highly regarded Launch diagnostic technology, offering worldwide vehicle coverage, powerful diagnostics and numerous special functions.

The Euro TAB 111 includes 39 special reset and service functions, it also features the Launch CarSet Electronic and Smart professional databases, seamlessly integrated into the ultimate version of Launch diagnostic software. Advanced coding and online programming are also features.

The SmartLink VCI communicates directly with a vehicle for local diagnostics, and via the Internet using the Launch Super Remote Diagnostic (SRD) platform. This allows a technician to connect remotely with our service provider, who will be able to communicate directly with the vehicle and carry out almost any programming or diagnostic task.

The Euro Tab III includes the Launch professional database fully integrated into the diagnostic software. This will take the user directly from the DTC to a step-by-step testing routine, leading to the fault code solution. The new Tab III comes complete with the Launch O2-1 four-channel oscilloscope, as well as the Launch TSGUN and four TPMS sensors.

EURO TAB III FEATURES

- Intelligent diagnostics for 100+ car brands
- Topology mapping provides visual checking on DTCs and all systems' communication status
- Supports the following automotive communication protocols and standards: CAN / CANFD / DoIP / J2534 / D-PDU / RP1210
- Optional ADAS calibration function
- Advanced coding and programming function
- Diagnoses light, medium & heavy duty vehicles with Smartlink® C
- Wireless software update

TEXA AXONE VOICE and TXT MULTIHUB

A new era: The hands-free revolution

AXONE VOICE is the first hands-free solution in the world of multi-brand and multi-environment diagnosis. It is a tool that adds the benefits of fixed workstations (power of calculation, size of the screen and possibility to be powered continuously) to the ones of portable diagnostic devices, and increases their potential thanks to the innovative ways of interaction.
